

follow the clues!

#5in5
let's go outside!

create a set of clues for someone to follow around your house and garden.

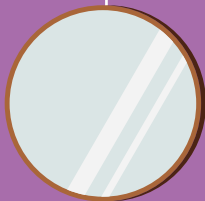

steps:

- step 1 print out the flash cards
- step 2 cut them out
- step 3 hide the clues around your house and garden
- step 4 each clue will tell the seeker where to look for the next one

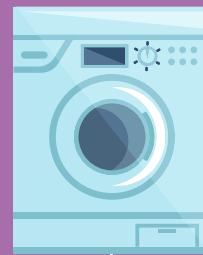

you will need:

- paper
- printer
- scissors

no time to waste!
the first clue is
hiding where you
see your face

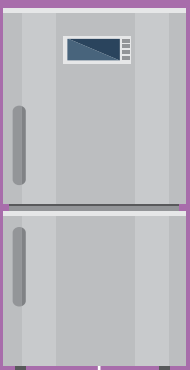

the next clue
has been
seen where
your clothes
get clean

the next clue is in sight, find
it where you rest at night

don't hold...the
next clue is
where the food
is kept cold

go to the garden,
it is hot hot hot,
is there something
hiding under the
flower pot?

it's time to go! next clue
is where you watch your
favourite show

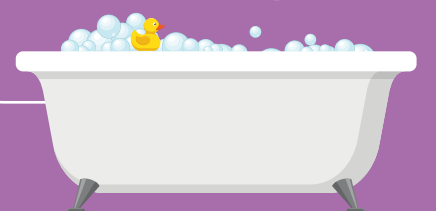

look for the next clue,
where you can find a shoe

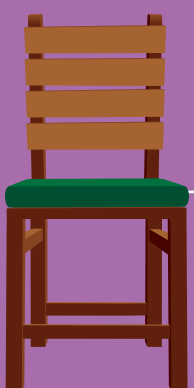

while you are walking around, look
for your clue where you sit down

to find your next clue, dash
where you have an evening splash

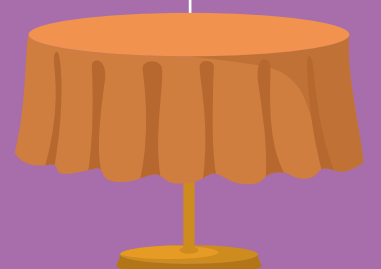

look left,
look right,
the next clue
is where you
sit outside

the next clue
is hiding,
where your
dirty clothes
are piling

now you are
nearly a winner!
look for a
clue where you
have your dinner
